# REPORT OF BOARD OF EDUCATION.

---

The territory of the town has for school purposes been classified in seven divisions, and the schools located in the school-houses, formerly belonging to the school-districts, Nos. 1, 2, 3, 4, 5, 8 and 9, respectively.

The disposition of the school money available is exhibited in the following :

---

Balance in hands of treasurer,	89 38
	<hr/>
	\$784 90

A true record. Attest:

ALVIN TUBBS,

Treasure of School Board.

We, the undersigned, having examined the foregoing accounts of the School Board, find them correctly cast and duly vouched. And we find in the hands of the treasurer eighty-nine dollars and thirty-eight cents, \$89.38.

W. F. WHITAKER,

VERTO SMITH,

Auditors.

The school-houses in divisions 1, 4 and 7 greatly need coats of paint on the outside while the one in division 5 must be shingled to prevent the destruction by the rain through the leaky roof of the costly and elegant finish inside. For the first time, we believe, the sum of one hundred and twenty-five dol-

lars was raised at the last annual meeting for the support of the schools, above the amount required by law. This sum was required to supply the deficit caused by the diminution of the public tax which forms the basis on which the school money is raised. Had it not been for this appropriation the schools could not have been supplied with so faithful and efficient teachers and their usefulness therefore would have been impaired. A similar appropriation is needed this year. It is the opinion of the board that the schools surpass those of former years in improvement and excellence. A large share of the credit for these gratifying results is due to the teachers whose excellent educational qualifications, combined with a natural tact for teaching and ability to govern, have rendered their labors all that could be desired or expected. Parents as well as others who have visited the schools should be commended for the interest they have manifested, and the assistance they have rendered. We have this year no poor schools to report; no teachers to criticise; therefore it seems superfluous to make further remarks on the schools.

For the names of teachers, length of terms, number of the scholars, &c., reference may be had to table on last page.

It is worthy of remark that since the town district system came into use little or nothing has been contributed in the way of teachers' board or fuel to prolong the schools.

Good teachers are more difficult to procure than formerly, while the school money has decreased.

Under the old system schools were generally prolonged by contributions in board and fuel. If the schools are shorter now than under the district system, these facts must be a sufficient explanation. We hope all interested in the welfare of the schools may be induced to contribute something for their support and increase the number of weeks in the summer and fall terms to twelve in the respective divisions.

The law now requires the town to furnish the text books and other necessary articles as a part of the economy of every school-room. No changes however will be made in the books, only where absolutely necessary. And it will be required of

scholars to use their own books where retained in use, and to exchange the old ones where new ones are adopted. By this course it is hoped the expense to the town will be lightened and the schools fully supplied with text-books.

---

## TEXT BOOKS.

---

Lippincott's Readers ; Harper's Arithmetics, Geographies, Spelling and Writing Books ; Swinton's Grammar ; Reed & Kellog's Language Lessons ; Higginson's History ; Steele's Physiology.

All which is respectfully submitted.

ISAAC SMITH,  
GEORGE C. PATTEN,  
ALVIN TUBBS,  
School Board of Deering.
